

# mezzo

big enough to read – small enough to carry

**NEW**  
incl. built-in rechargeable  
battery & bag

**LVHD**

mezzo is a compact electronic magnifier with a distinguished flatscreen technology. The integrated High-Definition (HD) camera ensures that pictures or print are displayed in high resolution - flicker free quality. These unique features are available to users at home, in school or university, at work or on the Go. Only 5.5 kg including rechargeable battery and practical carrier bag makes mezzo the ideal companion in any situation.

The adjustable monitor offers the most ergonomic viewing position for all activities. Simple operation is guaranteed with just three buttons involved.

Transport and installation is easy as mezzo is simply unpacked and unfolded. mezzo can be upgraded with an optional x/y table. Battery time can be increased by setting the illumination to medium light.

## Your benefits

- ▶ a compact reading system with low vision high definition picture quality
- ▶ easy for anyone – young or old alike – to carry, install and operate
- ▶ modern design for a contemporary look
- ▶ ergonomically superior with adjustable monitor position, compact design which requires less space
- ▶ flicker free picture in HD quality reduces fatigue and eye strain, thus improving duration of use

**LVHD** Our Low Vision High Definition camera technology offers a resolution which is 4.25 times higher than standard systems. In combination with progressive scan you will get a detailed image of superior quality.
